

ODI 1 P 3

Session 2

What's your favorite animal?

- My favorite animal is a cat. Cats are so cute and playful. They have whiskers and love to chase balls and strings.

Can you describe it?

- A cat is small and has got soft fur. It has got sharp paws and big eyes. It loves to play when it's happy.

Are you interested in wild animals?

- Yes, I am very interested in wild animals. Lions are so strong and brave, and elephants have big ears. I love to watch them in nature movies.

How can people take care of animals?

- People can take care of animals by giving them healthy food and clean water. They should also play with them and give them a safe place to sleep.

How often do you go to nature and what animals can you see there?

- I try to go to nature once a month. When I go, I can see many animals like colorful birds that sing in the trees and playful squirrels that run around. Sometimes, I even see rabbits hopping in the grass.

Is it the right thing to do to keep animals in a cage?

- I don't think it's right to keep animals in a cage. Animals need space to run, jump, and explore. They feel happier and healthier when they can move freely.

Have you ever had a pet?

- Yes, I have had a pet fish. It was a bright orange goldfish that loved to swim
